### Overview

New generation colour screen TPMS Tool.

With your new TECH450, the frustration of wrong service kits or wasted time dismantling a wheel to get to the sensor will be a thing of the past. The TECH450 can identify whether the sensor it has just read is OE or Aftermarket, and the Manufacturer.

Its easy to use and intuitive menu screens boast a range of time-saving features to help you get the job done quicker and with no hassle. Add the FREE Bartec TPMS Desktop for completed job reports, automatic software updates, and data received straight from the tool, allowing you to manage multiple vehicles through the diagnostic and repair process.

*Kit contains: Tool, OBD cable, Qi wireless charging cradle, USB cable, tool case.*
